LEADHERO · HAWAII FIELD PLAN · AEP 2027

Eric Barayuga, CPA

Licensed Medicare agent with IFG in Honolulu. Advocate first, agent second, and a CPA behind both. Here is the local strategy, the campaigns running this AEP, what I invest in, and the network I've built.

Prepared for Aaron Burton, IFG · November 2026

Medicare members in my own book	open opportunities in GHL	first-year potential already valued	Devoted kiosk leads since September

Where I'm coming from

This is my third AEP. The first two were group enrollment focused on unions: working under another agent's LLC, we closed four unions with more than 15,000 members, and my side was the non-union family members. I built much of it from scratch (website, local compliance, meetings, training recruits).

It worked, but it was short-term and high-risk, and it served the union and the company more than the person. Some of the practices weren't ones I wanted my name on. What brought my passion back is one-on-one work, and I want to build that book inside a real agency.

How I'm positioned

The advocate

helpinghawaiiseniors.com · eric@helpinghawaiiseniors.com

A plain-language news and education site, starting with the HMSA Akamai closures (about 16,000 members). The alias email is the address on the site, at events and on community mail, so people meet the helper before the salesperson. It identifies me as a licensed agent and carries the TPMO disclaimer; I'd welcome an IFG compliance review.

The agent

Where that conversation becomes a Scope of Appointment, a plan review and an enrollment. RetireFlo intake feeds GHL and a daily call list drives follow-up.

The CPA

Full-scope practice: tax, bookkeeping, advisory, and the money questions around Medicare (IRMAA, Social Security timing, RMDs). Medicare becomes part of a trusted relationship, not a cold pitch.

Campaigns this AEP

- **Devoted kiosks** at Longs Kalihi and Salt Lake through Dec 7. Carrier-sponsored; every lead tagged by location.
- **HMSA Akamai closures.** Blog explainers plus outreach to partners whose patients must switch.
- **Community mail.** Devoted letter and ReminderMedia; tracking codes on the next round.
- **Partners.** Sixteen tracked relationships, each with a phase and a next step.
- **Community tables.** Filipino Chamber, golf tournaments, health walks and union events.

How I invest

- **Carriers first.** I ask a carrier to sponsor before I pay for a venue. The Devoted kiosks are the model.
- **No retail space until we need to scale.** Kitchen tables, partner offices and carrier kiosks come first.
- **Built, not bought.** I designed the website, set up GHL pipelines and run my own follow-up system.
- **Out of pocket.** Event tables, community mail, the website and my licensing.
- **Hawaii reality.** IFG doesn't hold the Walmart contract here, so community, carrier kiosks and the CPA practice carry the weight.

Thank you for the co-op dollars

I'll put them where they can be measured (event tables, carrier-approved mail with a tracking code, kiosk materials) and report leads, appointments and enrollments against every dollar.

The network, ranked

By what each has produced and can still produce. Individual referrers by initials.

1. **Filipino Chamber of Commerce** COMMUNITY
   23 warm leads, the largest single source. Next: name one contact; member session in Open Enrollment.
2. **My CPA practice** OWN BOOK
   Highest-trust channel, least worked. Next: flag every client 63+ and every IRMAA notice at tax time.
3. **Devoted kiosks, Longs Kalihi & Salt Lake** RETAIL
   17 leads, 2 appointments. Next: call within 48 hours, offer in-person reviews before Dec 7.
4. **HGEA and union golf events** COMMUNITY
   78 tagged contacts from my group years. Next: qualify by age; go through retiree associations.
5. **Community newsletter (I.L.)** DIGITAL
   About 6,500 readers. Next: monthly explainer linking to the blog.
6. **helpinghawaiiseniors.com + booking** DIGITAL
   The only source with clean attribution. Next: booking link on every post.
7. **Individual referrers (G.C., A.K., A.N., V.D., A.B.)** PROFESSIONALS
   One warm referral each. Next: thank-you and AEP check-in.
8. **Financial planners and RIAs** PROFESSIONALS
   Two-way referrals with the CPA side. Next: intro meeting and a referral agreement.
9. **ADA Diabetes Walk** EVENTS
   6 warm leads from one table. Next: book 2027 early with a carrier sponsor.
10. **Community and civic golf events** EVENTS
    About 200 contacts, mostly unqualified. Next: one qualifying message; keep 64+.
11. **West Loch Ewa Senior Residence** EVENTS
    Venue open; seminars not yet running. Next: one session in Open Enrollment.
12. **Provider offices** PROVIDERS
    Doctors, dentists, optometry, chiropractic. Next: visit offices hit by the closures.

Pipeline snapshot

Open opportunities in GHL, 2 Nov 2026. Valued at 2027 Hawaii MA rates: $725 new to Medicare/MA, $363 switch.

Events		**358** · $1.5K
Retail Market		**54** · $20K
FEX		**39** · $0
Referrals		**29** · $10.5K
T65		**27** · $12.3K
All others		**20** · $5.4K

The Events pile is mostly 2024 golf and community lists not yet qualified by age. The value sits in Retail, T65 and Referrals.

Lead source planner

My model at default settings: 12 sources, 42 referrals a month, 21% average close, 90% of members kept, 18% operating costs, 30% tax. The live page has sliders for every input.

Year	Book start	New	Book end	Revenue	Net
1	101	107	198	$87K	$50K
2	198	129	307	$130K	$75K
3	307	156	432	$179K	$103K
4	432	188	576	$236K	$136K
5	576	227	745	$303K	$174K

Working estimates, not a forecast.

The honest read

Lead flow isn't the problem. Converting volume is. Kiosks produced 17 leads, 2 appointments and no enrollments yet. That's why I want IFG's training and systems.

Where I need help

Follow-up

I start conversations faster than I close the loop. I want a cadence I don't have to reinvent, and the discipline to run it during AEP.

Closing warm leads

In person, I close at a high rate. The gap is moving warm leads from "call me later" to a kitchen-table appointment.

Multi-state

Mainland family members keep coming up. How does IFG handle non-resident licensing, and when should I hand off?

I'm excited to see what I can do as part of a real agency: undo some bad habits from group work and build new ones that last. — **Eric**
