LEADHERO · HAWAII FIELD PLAN · AEP 2027

Eric Barayuga, CPA

Licensed Medicare agent with IFG in Honolulu. Advocate first, agent second, and a CPA behind both. Here is my lead estimate for the year, where I'm coming from, my routine and the network I've built.

Prepared for Aaron Burton, IFG · November 2026

LeadHero · live page
oggi.princellama.com/leadhero

Lead estimator

My realistic estimate for the year: about 30 referrals a month across ten sources. Individual book only; union and group business is not counted. 2027 Hawaii MA rates: $725 new to Medicare/MA, $363 switch or renewal.

Source	Ref / mo	Close	Clients
CPA tax clients and families	3	45%	16.2
Filipino Chamber and community groups	3	25%	9.0
Devoted kiosks	6	15%	10.8
Doctors, dentists, optometry	3	35%	12.6
Chiropractic and massage	1	20%	2.4
Financial planners and RIAs	2	35%	8.4
Senior residences and care homes	2	25%	6.0
Newsletter and social media	4	10%	4.8
Website and news blog	3	20%	7.2
Mail (letters, ReminderMedia)	3	8%	2.9
Total	**30**	**22%**	**80**

80
new clients, year one

$63.1K
year-one revenue with renewals

629
members after five years

$134.5K
net income, year five

Year	Book start	New	Book end	Revenue	Net
1	90	80	166	$63.1K	$36.2K
2	166	97	254	$95.9K	$55.0K
3	254	117	359	$134.5K	$77.2K
4	359	141	482	$180.1K	$103.4K
5	482	171	629	$234.4K	$134.5K

Assumes a starting book of 90, 10% of new clients new to Medicare/MA (the rest are switches), 95% of members kept, 15% referral growth and 5% better closing each year, 18% operating costs, 30% tax. Working estimates, not a forecast.

Where I'm coming from

This is my third AEP. The first two were group enrollment focused on unions: working under another agent's LLC, we closed four unions with more than 15,000 members, and my side was the non-union family members. It worked, but it was short-term and high-risk, and it served the union and the company more than the person. What brought my passion back is one-on-one work, and I want to build that book inside a real agency.

How I'm positioned

The advocate

helpinghawaiiseniors.com · eric@helpinghawaiiseniors.com

A plain-language news and education site, starting with the HMSA Akamai closures (about 16,000 members). It's also my lead collector: I advertise it in a magazine and online, and every Contact me request, booking and RetireFlo intake lands in GHL already tagged.

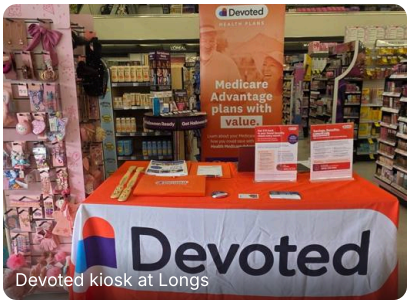

The agent

Resident license, Hawaii · Producer 491278 · NPN 19168935
Non-resident licenses: Washington (1187692), Nevada (health), Virginia

Appointed through IFG with Devoted, UHC and Humana. Where the conversation becomes a Scope of Appointment, a plan review and an enrollment.

The CPA

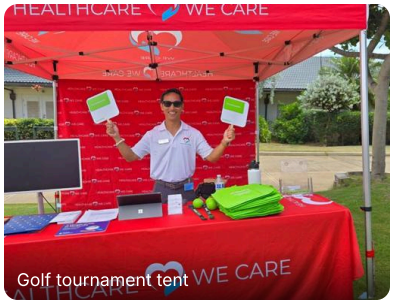

Full-scope practice: tax, bookkeeping, advisory, and the money questions around Medicare (IRMAA, Social Security timing, RMDs). Medicare becomes part of a trusted relationship, not a cold pitch.

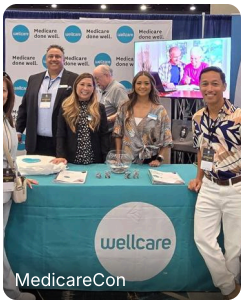

Devoted kiosk at Longs

Iron Workers union event

Golf tournament tent

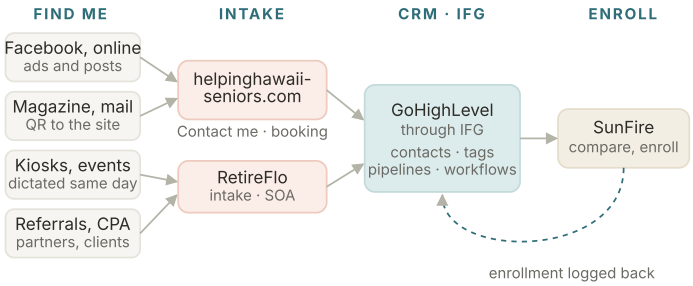

MedicareCon

The network, ranked

By what each has produced and can still produce. Individual referrers by initials.

1. **My CPA practice** OWN BOOK
   Highest-trust channel, least worked. Next: flag every client 63+ and every IRMAA notice at tax time.
2. **Devoted kiosks, Longs Kalihi & Salt Lake** RETAIL
   17 leads, 2 appointments. Next: call within 48 hours, offer in-person reviews before Dec 7.
3. **Community newsletter (I.L.)** DIGITAL
   About 6,500 readers. Next: monthly explainer linking to the blog.
4. **Filipino Chamber of Commerce** COMMUNITY
   23 warm leads from its membership. Next: name one contact; member session in Open Enrollment.
5. **Provider offices I work with** PROVIDERS
   Dentists, internal and family medicine, opticians. Next: a one-page guide to the plans each accepts, starting with offices hit by the HMSA closures.
6. **helpinghawaiiseniors.com + Contact me** DIGITAL
   The only source with clean attribution. Next: Contact me link on every post; count requests per ad.
7. **Individual referrers (G.C., A.K., A.N., V.D., A.B.)** PROFESSIONALS
   One warm referral each. Next: thank-you and AEP check-in.
8. **Financial planners and RIAs** PROFESSIONALS
   Two-way referrals with the CPA side. Next: intro meeting and a referral agreement.
9. **Community and civic golf events** EVENTS
   About 200 contacts, mostly unqualified. Next: one qualifying message; keep 64+.
10. **West Loch Ewa Senior Residence** EVENTS
    Venue open; seminars not yet running. Next: one session in Open Enrollment.

Tech stack

The site and RetireFlo collect; GoHighLevel, through IFG, holds every contact and follow-up; SunFire is where plans are compared and the enrollment is written.

Pipeline snapshot

Open Medicare opportunities in GHL, 2 Nov 2026, excluding final expense and union-sourced leads. Valued at 2027 Hawaii MA rates.

Events	**319**	· $1.5K
Retail Market	**54**	· $20K
Referrals	**29**	· $10.5K
T65	**26**	· $12K
All others	**20**	· $5.4K
Total	**448**	**· $49.4K**

Events is mostly 2024 golf and community lists not yet qualified by age. The value sits in Retail, T65 and Referrals.

My current routine

Kiosk calendar

Devoted kiosks at CVS/Longs through Dec 7: Salt Lake Shopping Center (#9955) Mon, Wed and Thu, 8 to noon; Kam Shopping Center (#9653) Tue and Fri, 8 to noon. Every conversation is dictated into GHL the same day, tagged by location.

Prospecting hour

An hour of calls every weekday from a list built each morning: kiosk leads inside 48 hours, promised call-backs, comparisons owed, new T65 leads. Recorded, with identity check, TPMO disclaimer and SOA, and logged back to GHL.

Where I need help

Follow-up

I start conversations faster than I close the loop. I want a cadence I don't have to reinvent, and the discipline to run it during AEP.

Closing warm leads

In person, I close at a high rate. The gap is moving warm leads from "call me later" to a kitchen-table appointment.

Training

A sales process I can repeat from first call to enrollment, carrier and product updates each season, compliance I don't piece together myself, and a kiosk-day ride-along.

Back-yard prospecting: 96818 and 96819

I want to be **the** Medicare agent for the five miles around my two kiosks. Not a call center or a mailer from the mainland: the local face people see at Salt Lake and Kam Shopping Centers, on their mail, and at the table when they're ready.

96818
Salt Lake, Moanalua, Aliamanu, Hickam

96819
Kalihi, Kalihi Valley, Kamehameha Heights

Postcard drip campaign

1,000 names and addresses, concentrated in these two ZIP codes. The same households get a series of postcards rather than one big drop, so by the time someone needs help, my face and my kiosk are already familiar. Every card points to one easy next step: stop by a kiosk, call me, or visit helpinghawaiiseniors.com.

1. **Your local Medicare agent is here to help.** Introduces me and both kiosk schedules. Sent.
2. **Devoted Giveback.** Devoted's carrier postcard with my name and number, leading with money back in the Social Security check. Sent.
3. **Plan changes.** The HMSA Akamai closures and what to do before AEP ends. Next.
4. **Turning 65 or new to Medicare.** For households with someone aging in. Next.
5. **Last call before Dec 7.** Kiosk reminder for anyone still deciding. Next.

Why Devoted

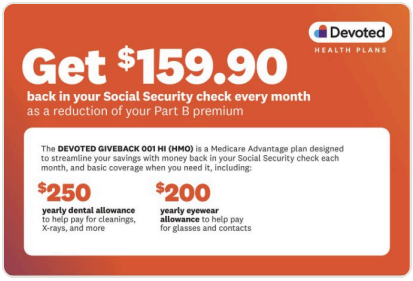

Devoted is one of the fastest-growing Medicare Advantage plans in the country, and it sponsors my kiosks. Leading with one carrier keeps the message simple, so the mail, the kiosk and the conversation tell the same story. I still review every plan I represent with each person.

How I'll track it

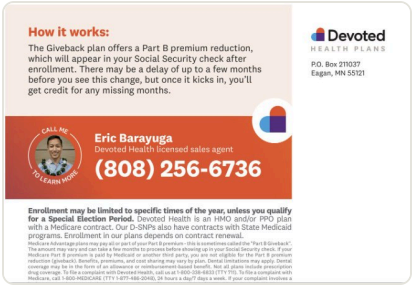

- Every response goes into GHL with source "Postcard 96818" or "Postcard 96819" and the card that brought them in.
- Kiosk visitors are asked "did you get my card?" and tagged the same way.
- Next rounds add a QR code or dedicated line, so cost per lead and per enrollment can be reported back to IFG.

Card 1 · Helping Hawaii Seniors kiosk postcard

Card 2 · Devoted Giveback, front

Card 2 · back, with my name and number
